

ENV079 Environmental Policy

ENVIRONMENTAL POLICY STATEMENT

LMG seeks excellence in every aspect of its business and is committed to the protection of the environment and minimising the environmental impact of our business operations including the prevention of pollution.

The company's Environmental Management System scope is:

The design and delivery of telecommunications infrastructure and fully integrated intelligent buildings, and the provision of technical support.

Our significant aspects have been identified as:

- I. The generation of specialist waste through the application of our scope:
- II. Carbon, generated through the application of our scope.

These significant aspects will be controlled through the setting of the aims and achievement of the objectives set out in the QA601 Aims, Objectives and KPI document.

The aims of this Policy will be communicated to all employees, suppliers and sub-contractors and will be made available to the public.

Each person engaged by LMG, whether as an Employee or as an Approved Partner (AP) is individually responsible for and expected to give a commitment to the minimisation of environmental impacts of the business and to adhere to the principles, aims and objectives of this Policy.

To give the EMS purpose and direction, SMART Environmental objectives are agreed at all levels and are documented in the QA601 Aims, Objectives and KPI document which is regularly reviewed at the annual Management Review Meeting. Objectives include identified risks, opportunities, aspects and impacts and support the business' overall strategy.

Management is committed to the continual improvement of the EMS and to comply with all applicable requirements, including customer focused, legislative, statutory and those of ISO14001:2015. At minimum annually, a Management Review Meeting is held with top management to review the Environmental Management System as a whole, including but not limited to the progress and ongoing framework of objectives and the Environmental Policy.

This Environmental Policy is available to all interested parties via the company's website and upon request.
